## CAREER OBJECTIVE

---

- Aspiring Java Full Stack Developer with strong knowledge of Java, HTML, CSS, JavaScript, and backend frameworks, seeking an opportunity to develop efficient, scalable web applications and grow as a software professional in a dynamic organization.

## SKILLS

---

- **Programming:** Java
- **Frontend:** HTML, CSS
- **Database:** SQL
- **Core:** OOPS

## PROJECTS

---

### Portable Digital Spirometer for Lung Health Monitoring 9 Months

- Developed a spirometer using pressure sensors to measure **FVC** and **FEV1** with real-time IoT monitoring.
- Implemented **machine learning** to classify lung conditions (Healthy, Obstructive, Restrictive).

### IoT-Based Temperature and Humidity Monitoring System 4 Months

- Built a low-cost **ESP32 + DHT11** system for real-time environmental monitoring.
- Integrated **ThingSpeak dashboards** for scalable cloud-based remote monitoring.

## EXPERIENCE

---

### Tap Academy Ongoing

*Java Full Stack Intern*

*6 Months*

- Developing and testing **Java full-stack applications** using modern development practices.
- Improving **debugging efficiency** and enhancing code quality through hands-on implementation.

## ACHIEVEMENTS

---

- Participated in a **Hackathon at PES University**, demonstrating strong problem-solving and innovation.
- Active **NCC cadet**; participated in **IDSSC, TSC firing camps** and national camps showcasing leadership and discipline.

## EDUCATION

---

### SJC Institute of Technology 2022 – 2026

*B.E in Electronics and Communication, CGPA: 8.7*

*Chikkaballapur*

### Best PU College

2020 – 2022

*PUC, Percentage: 94*

*Chikkaballapur*

### Sri Chitrapinakini High School

2019 – 2020

*SSLC, Percentage: 97*

*Reddygollavarahalli, Chikkaballapur*
